Soligrano

Your day full of sun

OWN CROPS REOURCES

The 1,700 hectares of farmland owned by OrganikAgro Foods - an affiliate of Soligrano - is a guarantee of quality for our grains.

SALES & MARKETING SUPPORT

Company managed in a modern way, whose young and highly qualified staff provides the highest quality of service to our contractors.

R&D TEAM

Modern research and development laboratory, where our specialists improve and create new products, to ensure that they are even healthier and always in line with the preferences and taste of our customers.

MODERN HIGH-BAY WAREHOUSE

Modern and automated warehouse, which allows storage of products in the most convenient conditions, where temperature and humidity are constantly monitored and controlled. The barcode-based WMS storage system guarantees our customers the appropriate distribution of products.

GRAIN CLEANING PLANT

A modern plant to which our grains are transported, cleaned, stored and prepared for further production.

OUR COMPANY

Soligrano is a Polish brand offering innovative products made from grains, which meet highest quality standards.

The company is associated with OrganikAgro Foods - the largest and the most modern producer of puffed cereals in Poland.

OUR PRODUCTION FACILITY - ORGANIKAGRO FOODS

One of the most modern and largest production plants in Europe, where we expand and process our grains. Modern technology, along with a new extrusion production line, enables innovative production solutions.

LOGISTICS AND OWN TRANSPORT

A modern fleet of trucks guarantees safe transport of our products to the farthest ends of Europe.

SAP SYSTEM

Company uses state-of-the-art resource management system with implemented ERP, EDI, WMS and CRM modules.

PACKAGING & PACKING CENTER

Integrated with Ishida X-ray inspection system Scales Ishida multi-head and Rovema bagging lines provide highly efficient and precise packaging that meets expectations of even the most demanding customers.
